Pre-registration required:

[2018 Conference Registration](#)

RSVP by September 28

Afterschool plays a vital role in the development of Chicago's youth. Our field continues to increase its impact through high-level conversation and collaboration among practitioners and leaders. This year's conference will provide new opportunities to advance best practices and our work through panels, workshops, a networking lunch and performance experiences.

HERE'S WHAT PARTICIPANTS HAD TO SAY ABOUT LAST YEAR'S CONFERENCE

"It was a wonderful experience. Everything about the conference was awesome and enlightening. I cannot wait until the next one.

The youth panel was amazing.

It was a fun, loving and informational conference."

"I think it's one of the most valuable youth conferences Chicago has to offer. It has brought together many well funded organizations along side non funded or underfunded organizations doing great work with youth against the odds."
