

Keep reading for the answer...

For the past 40+ years, the [All Stars Project](#) has provided a platform for young people to share with the world **who they are and what they're capable of** – whether on stage or in life. We've never stopped believing in their endless potential, which is why every year, we continue to develop new partnerships and create new opportunities to uplift and showcase their talents all across the country - while continuing to give our youth new opportunities to grow.

Like the All Stars, [Robitussin](#) also believes **all voices have power** and recognizes not everyone has equal access to opportunities to tap into that power. That is why for the second year in a row, Robitussin joined forces with the All Stars Project to showcase how our development-through-performance opportunities allow our young people to soar [through an amazing new series of videos featuring our youth and their voices](#). Take a look at 12 year old All Stars performer, Deity's confidence-boosting moment with the All Stars Project - like me, I know she will make you smile.

This year, [Jordin Sparks joined in on supporting our youth](#). As we all know, Jordin was given the **opportunity to shine** on the American Idol stage and **took the world by storm** from there as an award-winning singer and actress. Now, she's using her platform to **help others find their voices too**.

I keep watching these videos and can't help but want to continue **creating this spark for many more young people**. [Your support of the All Stars Project at this time of year](#), when the needs of the underserved youth we empower are abundant, will help countless other young people find their voice, **build their confidence, and grow on stage, and in life** ([just like Deity](#)).

Happy Holidays!

All my best,

Jenny Zak
