OUR MISSION

For 45 years, All Stars Project has been a leading national nonprofit organization creating programs where underserved youth learn to perform on stage — and in life! As we celebrate our 45th anniversary, we are proud to have impacted hundreds of thousands of young people and their families across the country.

Today, our free afterschool development programs reach 10,000 youth and families each year in **New York City, Newark, Jersey City, Chicago, Dallas, the San Francisco Bay Area**, and virtually nationwide. Our programs are proven to grow confidence, personal responsibility, and vocational competence — bringing young people together with caring adults from all walks of life and creating opportunities for both to grow and develop together.

OUR PROGRAMS

All Stars Talent Show Network

Our All Stars Talent Show Network (ASTSN) involves young people, ages 5 to 25, in producing and performing in hip-hop talent shows and performance workshops in their neighborhoods. Young people at all levels of talent are included and everyone who auditions makes the show. And youth without a "traditional" performance talent are invited to participate as ticket takers, ushers, sound and light engineers, and more. They are cheered on by audiences of family, neighbors, volunteers and donors. **This experience is transformative for all!**

Development School for Youth (DSY)

The DSY is a youth and leadership development program that **introduces young people to the business world and supports their growth through workshops** led by national corporate partners. Together with companies including CBRE, Deloitte, EY, JPMorgan Chase, and RBC Capital Markets, **nearly 6,000 young people from across the country** have developed through workshops, built important networks, and participated in summer internships that have changed the trajectory of their lives.

Development Coaching

Development Coaching **connects young people from across the country with caring adults and industry leaders** to build a new type of relationship together. Over an 8-week period, coaches and youth connect through weekly conversations and positively impact each young person's professional and personal development. **Over 1,500 young people and adult coaches have successfully paired together** since the program was founded in 2020, including youth and coaches from all over the country.

Bridge-Building Programs

ASP has developed bridge-building initiatives focused on addressing the social and racial divides in America. Through our award-winning, police-community relations program Cops & Kids, we have worked with over 5,000 NYPD and Newark Police officers to create empathy and understanding between our youth and officers. In Operation Conversation, we are making an impact by helping employees develop new skills around appreciation, listening, and exercising their "curiosity muscles." **All our programs are building diverse relationships that promote racial healing in everyday life through the power of performance.**
